

Playspace Game

Snowman Spell

A traditional yet interactive game that encourages spelling and can be played 6 feet apart! This game is a twist on the classic Hangman game.

Played with two people or two teams, one side comes up with a word and draws lines in chalk on the driveway to indicate each letter in the word. The other person/team guesses a letter and if it's in the word, the other team draws it in, but if it's not in the word, a snowman gets drawn one line or body part at a time.

Continue until the word is guessed or a full snowman is drawn. Then switch who is guessing the word and who is drawing.
